NEXT MONTH IN Money

What's ahead for food—
Even without shortages,
economists expect that
food prices will climb

steeply in 1975. We digest forecasts of
future problems and suggest ways
to eat well in spite of the increases.

High-yield stocks to grow on—
Prices are so low these days that some
stocks are producing bondlike yields.

We analyze their potential for
stocklike growth. **The return on a
tax preparer—** Whether a tax man can
save you more than his fee depends
on an accurate assessment of the
intricacies of your return—and
his ability.
